

Over 60,000 Industry Professionals Flock METALEX 2008

METALEX 2008, which was held between 20-23 November at BITEC, Bangkok, Thailand, fetched about 63,000 manufacturing professionals to expose new levels of productivity in new innovative technologies, quality information and knowledge in conference

sessions, and learning networking opportunities in special concurrent activities. Due to a concrete output from METALEX, the exhibitors and the visiting industrialists from around the world applaud it as the real trade exhibition of the manufacturing industry in ASEAN.

METALEX Activities on Site

METALEX Congress

METALEX congress was comprised with two sessions, where it contributed the critical economic and industrial information for manufacturing executives. 'Dinner Talk' session was held on 20 November at Grand Hall BITEC, by Dr. Thanong Bidaya, former minister for finance. In his keynote topic, Dr. Thanong Bidaya guided on 'World Economy Challenges in Thai Economy's Competitive Competency.' The second one was panel discussion on 21 November 2008 at Grand Hall, BITEC. The panel shared the delegates with the government's policies which will support investment by Dr. Atchaka Brimble, Secretary General of the Board of Investment of Thailand (BOI). The panel also includes Mr Shigenori Hata from the Japan External Trade Organisation (JETRO) who spoke about investment direction of Japanese industrial investors in Thailand in 2009. At the end of the session, Mr Pichai Lertsupongkit, Senior Vice President- Equity Sales, Thanachart Securities Public Company Limited, clarified the

economic factors which will influence the investment in 2009 for industrial sectors.

METALEX Night

The glorious charity night for Exhibitors and Supporters raising fund for Twin Books for the blind children while indulging in beautiful music by Jennifer Kim and KOH MR. Saxman.

METALEX Conference

Almost 5,000 delegates from all over the world found new innovative ideas and expanded their horizons and vision from eminent international speakers.

Thailand Welding Competition 2008

The competition was organised to find the best welder in Thailand and promote the welders' talents to local and overseas industrialists and investors.

Reed Tradex thanks exhibitors, supporters, visitors, and the media for playing major role in propelling the manufacturing industry forward to flourish against all odd.

For METALEX 2009, which will be held on 19-22 November 2009, the organiser assures more positive response from exhibitors and industrial visitors. METALEX 2009 has already been 95% booked by top exhibitors.

Spareage Seals - A Utilitarian Solution for Steel Mills

Spareage Seals Ltd is a leading manufacturing company of Hydraulic seals, Pneumatic seals, Rotary seals, and 'O' Rings. The company produces seals, which are used original equipment and replacement applications in a slew of industries ranging from steel plants to nuclear &

thermal power plants cement plants, hydraulic and pneumatic cylinders, gear box and motor manufactures. Spareage also manufactures piston seals, rod seals, wiper, wear and bonded

seals, standard seals, fabric seals heavy duty seals, V-rings & O-rings too are made by the company.

In fact, The company provides total sealing solutions for the existing assemblies by designing special sealing profiles suitable to the existing grooves with minimum modifications in the parts. The recommended sealing profiles are specially made according to the application parameters to overcome the failure. Split seals are used to reduce downtime in replacing seals especially during shut down time, without removing heavy couplings or parts. These are for use in applications such as bearings mounted on shafts, gear box couplings and fly wheels of heavy equipment in various industries. Spareage can provide specially moulded split seals which should be used with a retainer plate.
